OYESUNLE LEKAN

Backend Engineer

CONTACT

Phone: +2348142266856
Email: lekanoyesunle@gmail.com

PORTFOLIO:
https://lekanoyesunle.vercel.app
https://www.linkedin.com/in/dyuuz
https://github.com/Dyuuz

SKILLS

- Python/Java/JavaScript/SQL
- Django/Fastapi/Rest FrameWork
- HTML/CSS/HTMX/React
- Database & Cloud Integration(AWS)
- Cloudinary(CDN)/Redis(Caching)
- PostgreSQL
- Docker/CI-CD Pipeline
- Git/Shell/Linux

SOFT SKILLS

- Analytical thinking
- Logical Reasoning
- Multitasking
- Problem Solving
- Excellent Communication
- Time management
- Creativity
- Attention to detail
- Team Collaboration & Alignment
- Adaptability

EXPERIENCE

DS Lengends _ June – July 2025 (Singapore)
Built automated data pipeline and machine learning model workflows for a crypto prediction system, utilizing AWS EC2 to enhance backend performance.

INSBRID _ May – June 2025 (Saudi Arabia)
I built a backend architecture for a shipping system using Django and REST APIs, improving efficiency and enhancing scalability. I integrated frontend interfaces using Vue.js and HTMX.

Don Clem Technology _ February – June 2025 (United Kingdom)
Internship – Backend Development
I worked on APIs, optimized code workflows, and contributed to existing backend systems.

Smart Code Academy _ April – October 2024 (Ogun State, Nigeria)
Participated in an internship at a tech-focused educational hub, gaining advanced knowledge and hands-on experience in Python, Django, JavaScript, and SQL.

ALX _ August 2022 – January 2023 (Nairobi)
Gained hands-on experience in C, Python, Git, Bash, and shell commands through intensive, project-based learning at ALX.

Penyl Consult _ June – September 2022 (Oyo State, Nigeria)
A physical learning center affiliated with The Polytechnic Ibadan, where I began my tech journey and learned the fundamentals of programming, with Python as my first language.

EDUCATION

Federal University of Abeokuta, FUNAAB.
Bachelor of Science in Computer Science (2021 – 2025) – Second Class Honors

CERTIFICATES

Computer Professionals(GMCPN) | July 2025   Computer Science

Don Clem Technologies | February – June 2025   Python, Django, RESTAPI, postgreSQL, Docker

Smart Code Academy | April – Oct 2024   Python, Django and SQL

PROJECTS

- Real-time Crypto Exchange Rate(CoinBeacon)
- Automated Crypto Price Prediction System using ML
- Job and Documents Management System
- ChatAPI with Django Rest framework
- Tech Scape Blog

- Don Clem Technology – Social Media System APIs
- INSBRID – Logistics System APIs
- Data Vault System
